

I love K-LOVE as a radio station. I listen to Christian music and it is one where I can get it on the radio all the way to work. My Christian beliefs are very strong for me. Too much of what is on the radio is unfit for people like me. In Southern Oklahoma there are a lot of people who would lose out if there were no Christian music. I would quit listening to the radio and only listen to the CD player in my car if this was displaced by an LPFM broadcaster. I beg to reconsider replacing this with an inferior type of music to people in the Bible Belt who love good Christian music.
